

NERVOUSNESS AND BEHAVIOUR

TAKE IT EASY

FOR STRONG STRESS RELIEF

1. RECOMMENDED USE

Cavalor® Take It Easy paste helps manage stress quickly, so that your horse is calmer and more focused when it arrives at the start.

Cavalor® Take It Easy promotes rest and relaxation during temporary stressful situations. It contains a high dose of L-Tryptophan, which can be absorbed quickly and efficiently by the body due to its combination with vitamin B1. Tryptophan stimulates the production of serotonin, an endogenous substance that is part of the body's natural stress-defence system. The paste in an oral syringe makes Cavalor® Take It Easy ideal for use during competitions to promote calm and concentration.

2. PRODUCT PROPERTIES – KEY INGREDIENTS

L-Tryptophan: tryptophan stimulates serotonin, an anti-stress hormone naturally produced by the body.

Vitamin B1: facilitates the work of neurotransmitters, supports the adrenal glands and has a soothing effect.

Magnesium citrate: organic, easily absorbable source of magnesium. Magnesium has a soothing effect and helps muscles relax.

VITAMIN B1 → 1 200 mg/l
TRYPTOPHAN → 296 000 mg/l
MAGNESIUM → 1%

PRODUCT PROPERTIES – KEY INGREDIENTS

3. INSTRUCTIONS FOR USE

There is no universal approach to horse stress because every horse reacts differently. The recommended dosage is: 20 g the evening before, 20 g the morning of and 20 g one hour before the stressful event. Depending on the stressful event and the degree of stress associated with it, the dose can be adjusted from a minimum of 20 g up to a maximum of 180 g spread over a 24-hour period prior to the stressful event. 1 syringe = 60 g.

Administer with feed.

Cavalor supports the seeking of veterinary advice before use.

If used in performance or competition animals, the regulations of the relevant territorial authorities regarding use should be observed.

It is recommended that a veterinarian's opinion be sought before prolonged use.

4. PACKAGING AND STORAGE

Store in a cool, dry place. Keep out of reach of children. May be stored up to 1.5 years after the production date.
